Introduction :

All major body corporates in Malaysia has adopted ESG Frameworks with specific targets and timelines between 2024 – 2030. In driving towards achieving these targets, these corporate bodies will insist on their suppliers and service providers having some elements of ESG in place and this is where it will have an impact on the Asset and FM Industry. FMAC2024 will be a perfect avenue for FM Practitioners and stakeholders to enhance their awareness about the impact of ESG and incorporate it into their business strategies and plans for 2024 – 2030.

Objectives :

- To create awareness within the Build Environment fraternity specifically the Asset & Facilities Management Industry about the ESG Framework and its impact on their business strategy and plans.
- To gain in depth knowledge from experts on quick wins and high priority areas to focus on in incorporating ESG in the business strategy and plans.
- A platform for Build Environment and Asset & Facilities Management practitioners to network and gain practical insight on current ESG trends in Malaysia and the region.
- To enhance insight to fast-track adoption of ESG by using 4th Industrial Revolution digital technologies.
- To provide opportunities for Build Environment and Asset & Facilities Management organizations to exhibit their innovative products and services.

Who should attend :

- MAFM and MAPMA Members
- Build Environment Executives and Personnel in Government Agencies, GLCs & Private Sector
- Asset & Facilities Management Practitioners in Government Agencies, GLCs & Private Sector
- Members of Professional Bodies like BEM, IEM, PAM, BQSM, RISM, MIID and MIPFM
- Researchers and Academicians
- NGOs
- Students
